Powerful Inside Performance

IQTouch Interactive touch panel adopts the latest Android 11.0 version with 8G RAM+128G ROM ensures extremely stable and powerful system. Smoothly run and switch multiple applications, greatly improve the efficiency of a meeting room.

8G RAM
128G ROM | Android 11.0
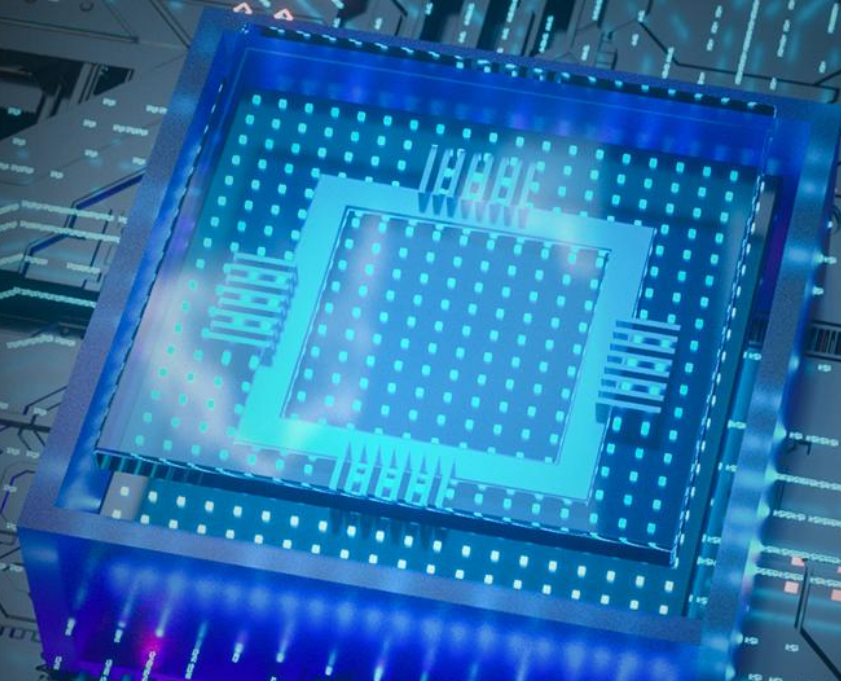

Advanced Audiovisual Performance

● **4K AI Camera**

Integrate 48MP AI Camera with voice tracking and auto framing. It precisely positions and automatically switches focus between the different speakers in video conference.

● **8 Array Mic**

Seamlessly integrating 8 microphone arrays embrace Acoustic Echo Cancellation (AEC) technology and support the ideal voice pickup range of up to 6 meters.

The Updated Seamless User Experience

TB1100 Pro Gen 2 delivers a revolutionary new user interface -- IQ OS V4.0 with a more intuitive UI design and places all of the most commonly used tools right at users' fingertips. Flexible to customize your preferred applications at the function menu and experience the super-seamless operation of IQ OS.

Write "Infinity" on AI Whiteboard

The touch screen for education brings you the built-in 4K AI whiteboard with endless possibility. More intelligent functions like handwriting, shape recognition, split screen mode, smart table, etc., are offered to improve the presentation in every way.
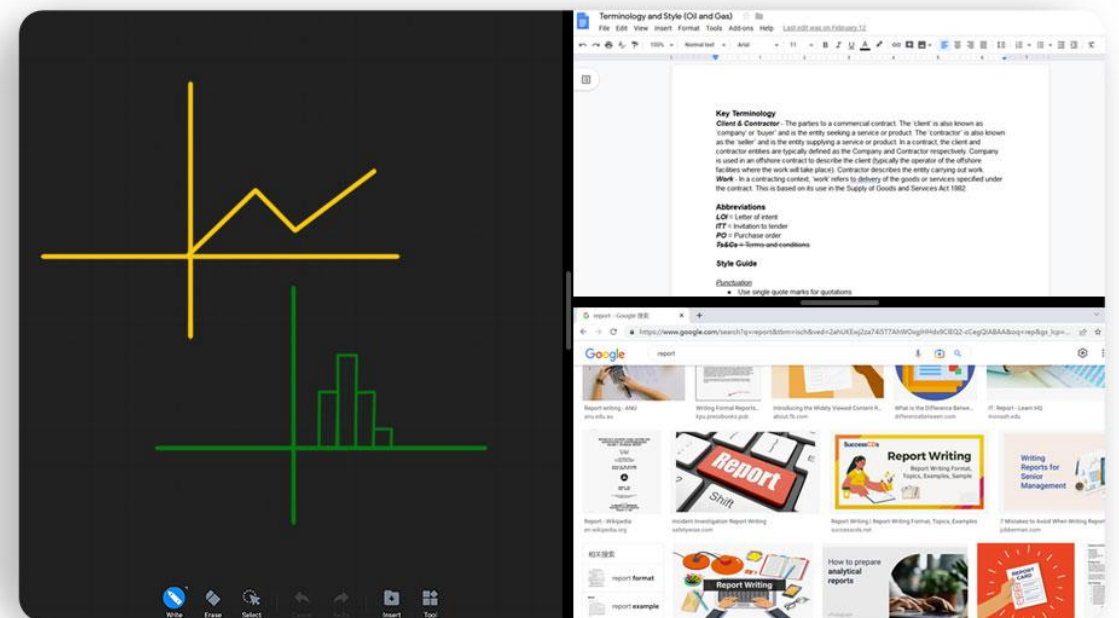

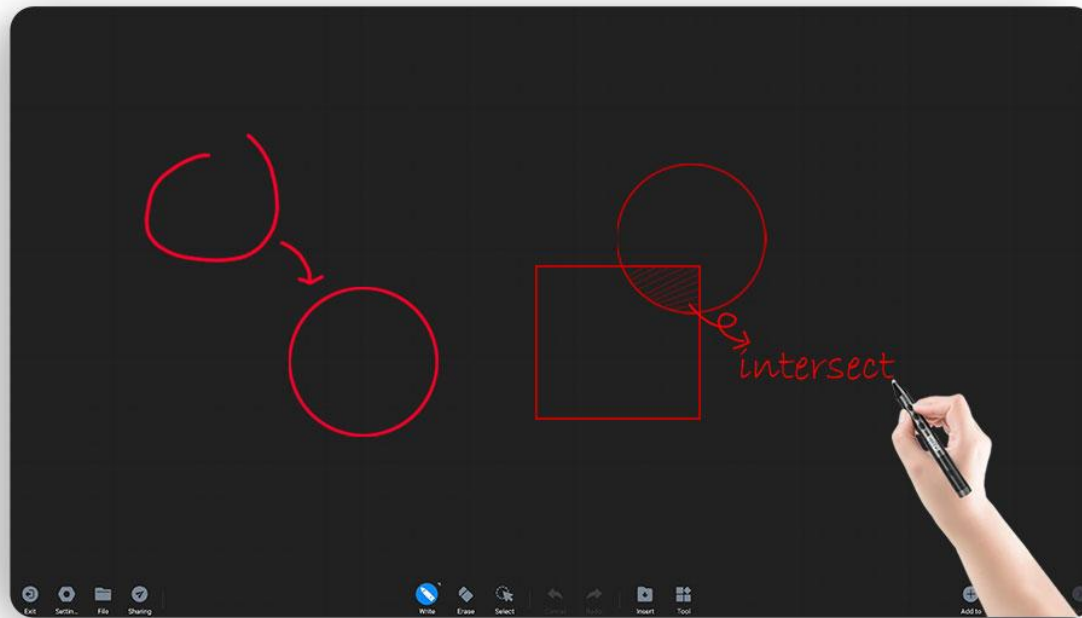

4K Wireless Screen Sharing

The amazing screen sharing tool for team collaboration. As a natural extension of BYOD, BYOM allows you to wirelessly access the camera of TB1100 Pro and start the video conference with your preferred UC platform.

Share multiple mobile devices to the large screen with up to 9-split screen.

Allow the remote colleagues to cast their personal files by web browser.

Group share the same content to multiple displays in one meeting room.

HDMI OUT for Extended Screen

Dual screen solution enables simultaneously delivering the 4K@60fps image and sound from the interactive display and the external device. It is ideal for the larger space of the classroom or conference room to maximize the visibility.

Plug & Play USB-C

A single cable solution for interactive touch panel realizes two-way touch control, LAN share, 65W fast charging, audio and 4K@60fps video transmission with the interactive display. Compatible with multiple mobile devices such as laptops, tablets, and smartphones, which instantly starts your presentation in a stress-free way.
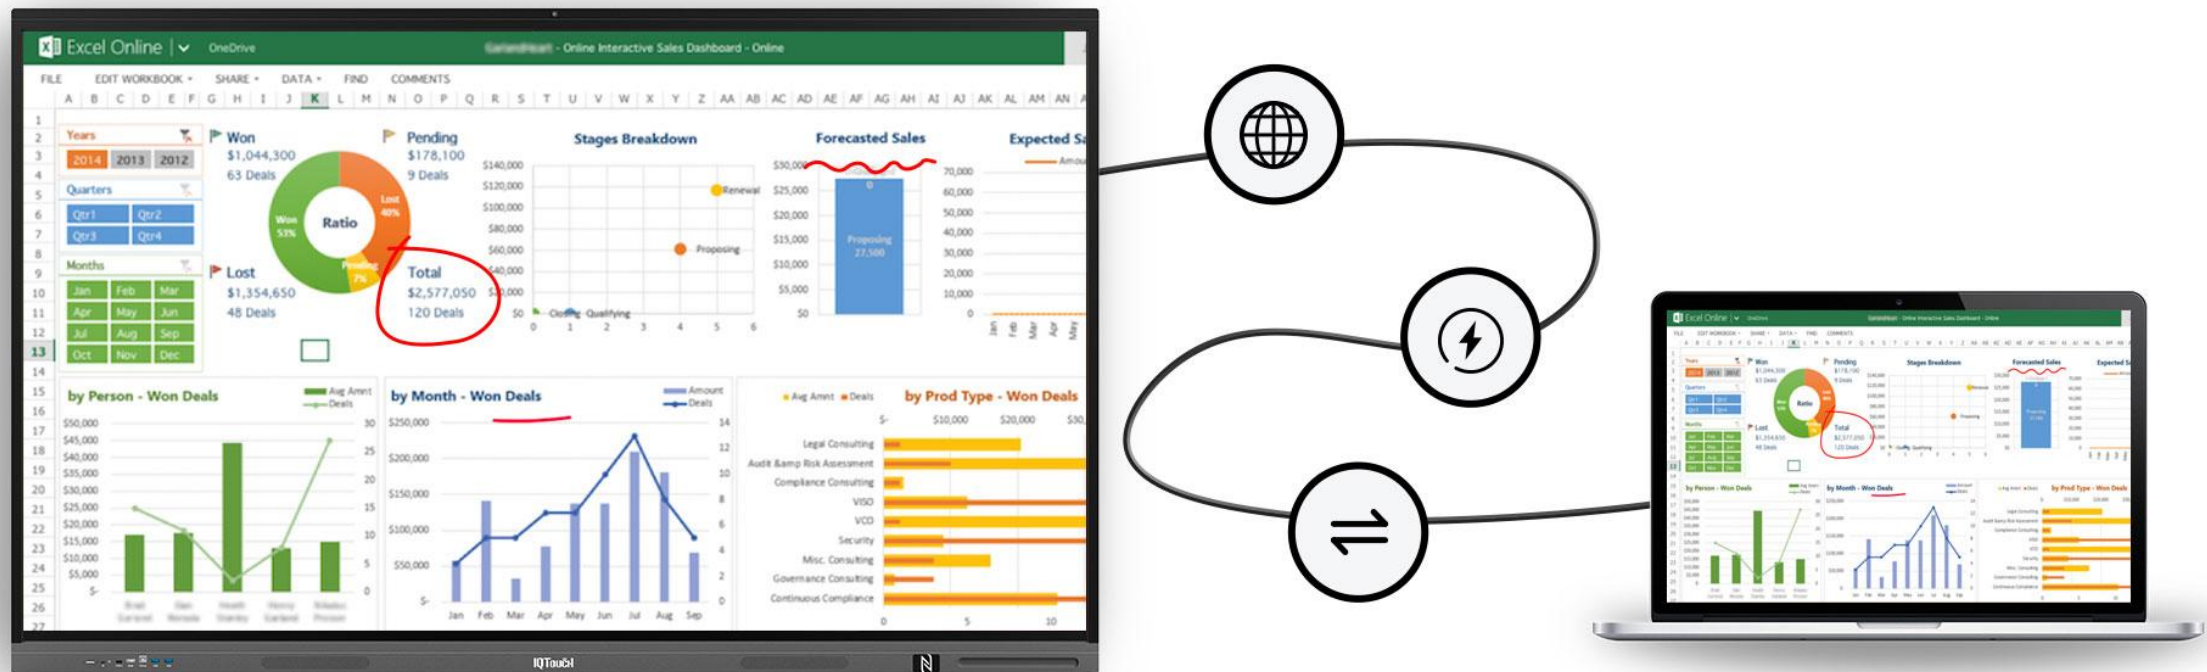

High Speed Network

Dual-Band / WiFi 6 / Up to 1000M LAN

Dual-band WiFi module design makes it possible to simultaneously access the Internet and share the hotspot that allows wired and wireless transmission without interference. WiFi 6 and 1000M LAN sharing guarantee ultra-high network speed. Even 4K video can be presented smoothly without lag.

4K
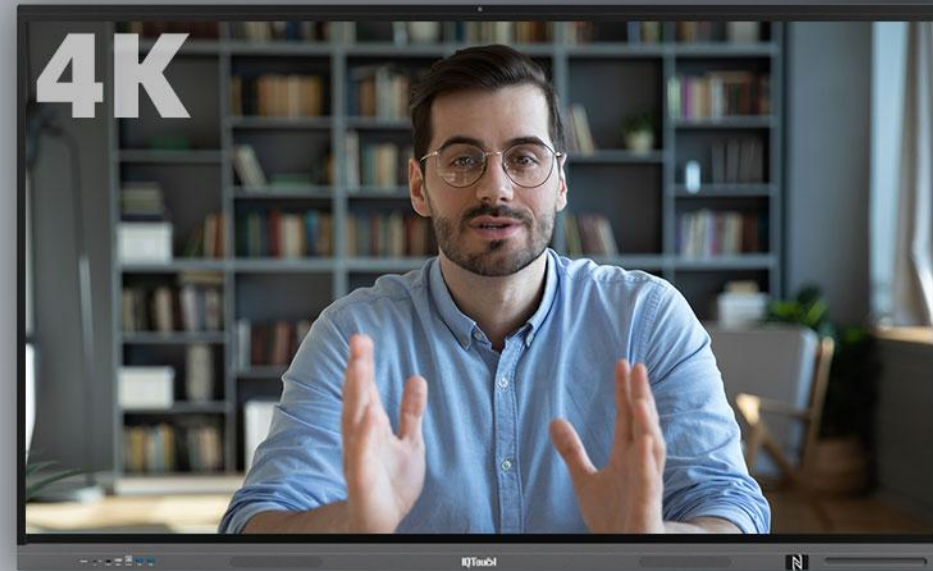

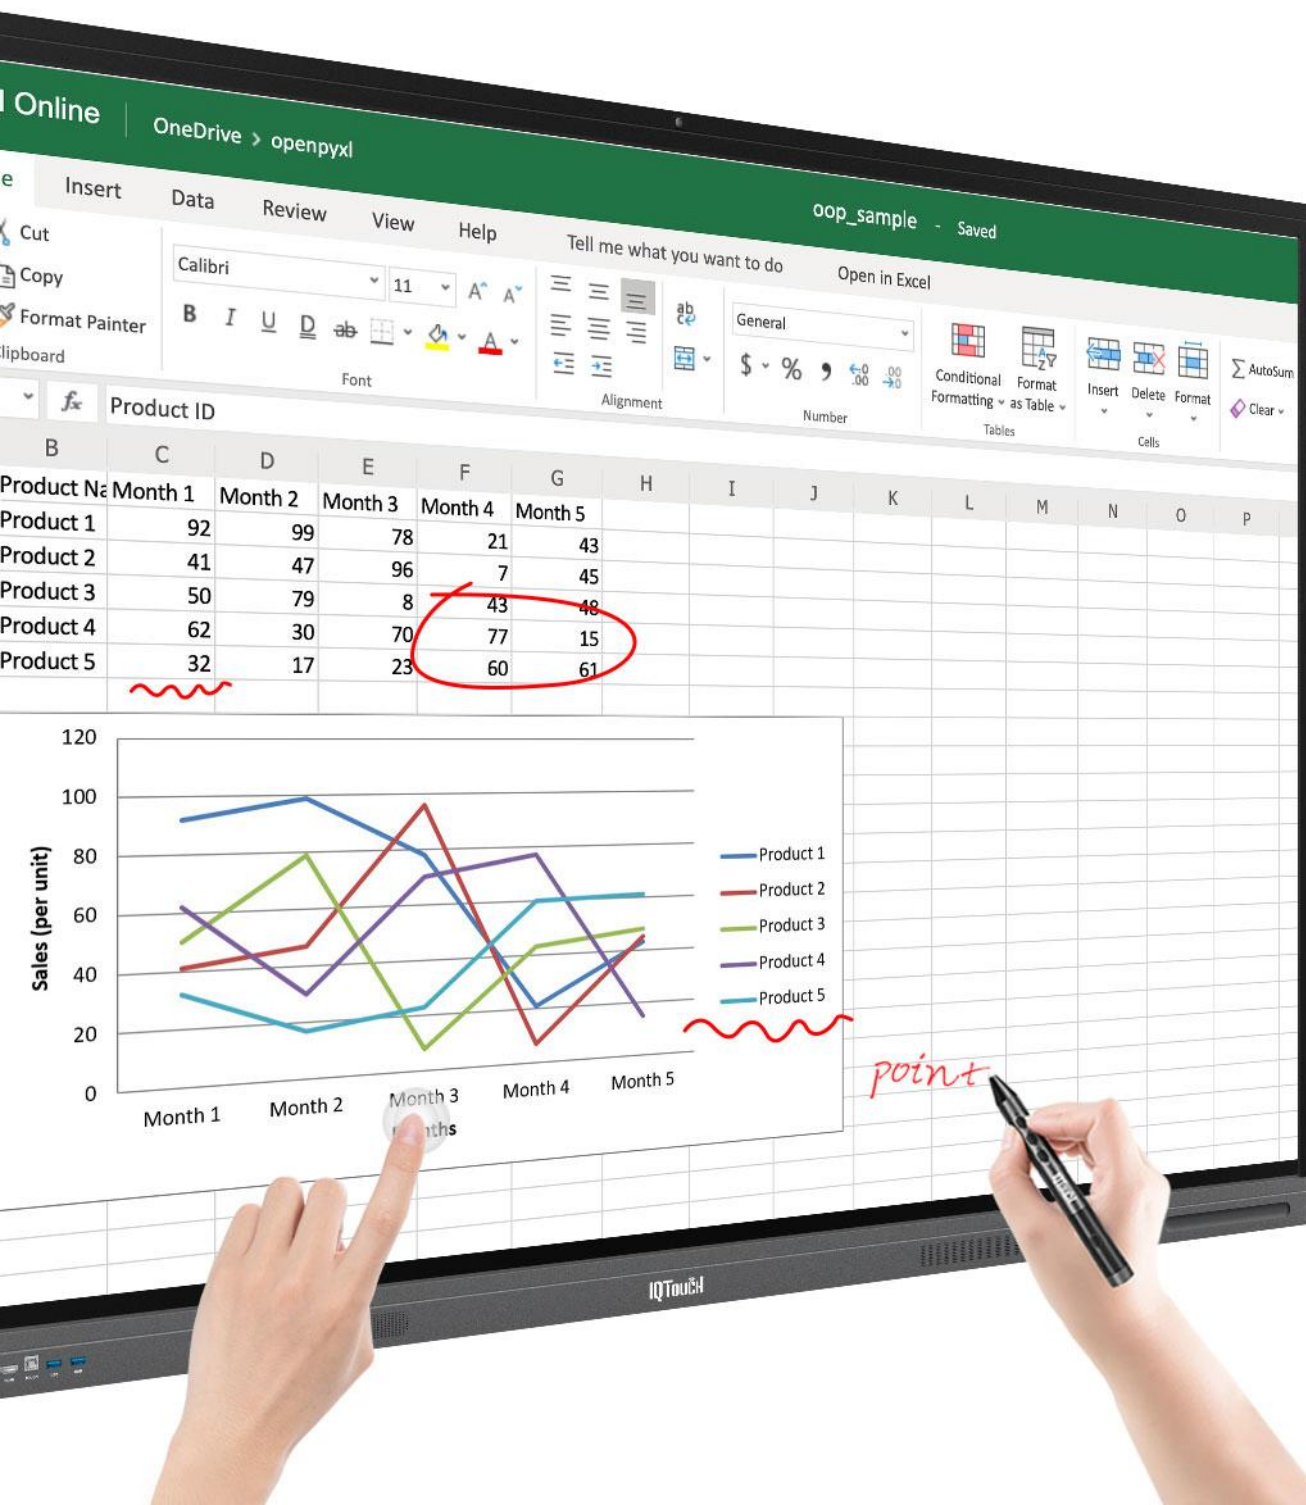

Infrared Ultra Fine Touch Screen

Zero+ Bonding / Infrared Ultra Fine Tech / Windows Ink

Fully upgraded zero+ bonding and Infrared Ultra Fine (IUF) technology empower the screen high-level image quality, instant response and high precision, revitalizing more vivid visual experience and natural writing. With the collaborative Windows Ink that supports writing on MS Office documents, saving annotations in files and share, you will never lose a thought.

NFC Access Control

Embedded NFC access control technology, easily unlock the touch screen by NFC card. Save time from the operations of screen lock setting and password entering. Only one-tap NFC login, the touch screen will be ready to use.

Remote Device Management System

- Give you full control of IFPD on unified platform
- Get powerful insights and analytics to IFP usage
- Centralized application management for flexible installation
- Set your schedule and auto-execute the tasks
